Experience

Web Developer 2019-2021

Current Remote job from Turing.com

As a web developer, I was able to gain a range of technical and problem-solving skills. I learned how to write code, debug and troubleshoot problems, use web development tools and frameworks, collaborate with teams, and create web applications from scratch. I also developed a deep understanding of how the web works and how to create user experiences that are both seamless and secure.

IT Specialist(troubleshooting and repairing computers and computer programs) 2017-2019

Current EMEBEGI-Ltd-Gisenyi

While working as an IT specialist, I gained a deep understanding of computer systems and networks. I learned how to troubleshoot technical problems, install and configure computer systems, and provide technical support to users. I also developed strong customer service and communication skills, which are essential for an IT specialist. In addition, I gained experience in managing IT projects and creating computer networks
